MANAGEMENT’S RESPONSIBILITY FOR FINANCIAL REPORTING and NOTICE TO READER

The accompanying unaudited condensed consolidated interim financial statements of Aurania Resources Ltd. (the “Company”) for the six months ended June 30, 2016 are the responsibility of the Company’s management (“Management”) and have been prepared by Management and include the selection of appropriate accounting principles, judgments and estimates necessary to prepare these condensed consolidated interim financial statements in accordance with International Accounting Standard (“IAS”) 34 *Interim Financial Reporting* using the accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) for condensed consolidated interim financial statements.

In accordance with National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed consolidated interim financial statements, they must be accompanied by a notice indicating that the condensed consolidated interim financial statements have not been reviewed by an auditor. The Company’s independent auditor has not performed a review of these condensed consolidated interim financial statements in accordance with the standards established by the Chartered Professional Accountants of Canada for a review of condensed consolidated interim financial statements by an entity’s auditor.

AURANIA RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended June 30, 2016 (Unaudited)

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND BUSINESS CONTINUANCE

Aurania Resources Ltd. (the "Company") is a junior exploration mining company engaged in the identification, evaluation, acquisition and exploration of mineral property interests, with a focus on precious metals.

Currently, through its 100% wholly-owned subsidiary AuroVallis Sàrl ("AVS"), the Company is engaged in the exploration of certain mineral property interests in Switzerland (the "Properties"), more particularly described in *note 4*. The Company is exploring the Properties under government-granted permits and has not yet determined whether these Properties contain reserves that are economically recoverable.

As at June 30, 2016, the Company had cash of \$9,834 (December 31, 2015 - \$7,753) and liabilities of \$442,061 (December 31, 2015 - \$250,104) including a step promissory note of \$290,290 (\$162,100 at December 31, 2015) which is due on demand and owing to a company controlled by a principal shareholder and director of the Company (the "Lender"). Further, the Company had an accumulated deficit of \$6,481,977 (December 31, 2015 - \$6,312,232) and a working capital deficiency of \$410,026 (December 31, 2015 - \$240,281).

During the six months ended June 30, 2016 and 2015, the Company did not complete any equity financings however the Lender did advance \$128,190 (2015 - \$26,700) for working capital.

The Company's ability to continue operations and fund its future exploration property expenditures is highly dependent on Management's ability to secure additional financing. Management acknowledges that while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. These condensed consolidated interim financial statements do not include the adjustments that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material. As a result of the financial matters discussed in the preceding paragraphs, there is a material uncertainty that results in significant doubt regarding the ultimate applicability of the Company's going concern assumption.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) *Statement of compliance*

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with IAS 34 - *Interim Financial Reporting* using the accounting policies consistent with IFRS as issued by the IASB.

The accounting policies applied in these condensed consolidated interim financial statements are based on IFRS policies issued and outstanding as of the date the Board of Directors approved these interim financial statements (August 26, 2016). The same accounting policies and methods of computation are followed in these condensed consolidated interim financial statements as those applied in *note 2* of the Company's most recent annual consolidated financial statements for the year ended December 31, 2015 and have been consistently applied throughout all periods presented, as if these policies had always been in effect. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2016 could result in the restatement of these condensed consolidated interim financial statements.

(b) *Basis of presentation*

These condensed consolidated interim financial statements have been prepared on a historical cost basis using the accrual basis of accounting except for cash flow information. All amounts have been expressed in Canadian dollars, the functional currency, unless otherwise stated and CHF represents Swiss francs.

AURANIA RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

For the three and six months ended June 30, 2016

(Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES, Continued

(c) Basis of consolidation

These condensed consolidated interim financial statements incorporate the financial statements of the Company and its wholly-owned subsidiary AVS, incorporated under the laws of Switzerland. All intercompany transactions, balances, income and expenses are eliminated upon consolidation.

(d) Significant accounting judgments and estimates

The application of the Company's accounting policies in compliance with IFRS requires Management to make certain judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. These estimates and assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that Management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- i). the inputs used in accounting for valuation of warrants and options which are included in the condensed consolidated interim statement of financial position;
- ii). the inputs used in accounting for stock-based compensation expense in the condensed consolidated interim statement of loss;
- iii). the \$nil provision for decommissioning and restoration obligations which are included in the condensed consolidated interim statement of financial position; and
- iv). the existence and estimated amount of contingencies (*note 11*).

(e) Changes in Accounting Policies

During the six months ended June 30, 2016, the Company adopted a number of new IFRS standards, interpretations, amendments and improvements of existing standards including IAS 1. These new standards and changes did not have any material impact on the Company's condensed consolidated interim financial statements.

3. CAPITAL AND FINANCIAL RISK MANAGEMENT

Capital management

The Company considers the capital that it manages to include share capital, share premium, contributed surplus and deficit, which at June 30, 2016 was a deficiency of \$410,026 (December 31, 2015 - \$240,281). The Company manages its capital structure and makes adjustments to it, based on the funds needed in order to support the acquisition, exploration and development of mineral properties. Management does this in light of changes in economic conditions and the risk characteristics of the underlying assets. There has been no change with respect to the overall capital risk management strategy during the six months ended June 30, 2016.

The Company is not subject to externally imposed capital requirements by a lending institution or regulatory body, other than those of the TSX Venture Exchange ("TSXV"), which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of six months. As at June 30, 2016, the

AURANIA RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

For the three and six months ended June 30, 2016

(Expressed in Canadian Dollars)

3. CAPITAL AND FINANCIAL RISK MANAGEMENT, Continued

Capital management, Continued

Company may not be compliant with the policies of the TSXV but has not been notified of such a deficiency or any possible impact, which is ultimately dependent upon the discretion of the TSXV.

The Company's continued existence is dependent upon the ability to obtain the necessary financing to complete exploration and development, obtain necessary government approvals and attain profitable production. Management continues to identify and assess new project opportunities consistent with its growth strategy. At June 30, 2016, the Company does not have sufficient funds to continue operating in the normal course; accordingly, Management is pursuing financing strategies including short-term loans to assist the Company in meeting its ongoing financial commitments.

Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign exchange rate, and commodity price risk). Risk management is carried out by Management with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management. There have been no changes in the risks, objectives, policies and procedures during the reporting period.

(a) Credit risk

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company has no significant concentration of credit risk arising from its operations. Cash is held at select Canadian and Swiss financial institutions, from which management believes the risk of loss to be remote.

The Company does not have any material risk exposure to any single debtor or group of debtors.

(b) Liquidity risk

Liquidity risk arises through an excess of financial obligations over financial assets at any point in time. The Company's approach to managing liquidity risk is to maintain sufficient readily available cash to continue operations and meet its financial obligations as they become due. As the Company has no producing assets, continued operations are dependent upon its ability to raise adequate financing through equity issuances, through debt or by the disposition of assets.

As at June 30, 2016, the Company had \$9,834 in cash to settle \$151,771 of trade and other payables and a promissory note of \$290,290 (December 31, 2015 - \$7,753 in cash to settle \$88,004 of trade and other payables and a promissory note of \$162,100). Working capital will continue to fluctuate until the Company has achieved profitable levels of operations and profitability will not occur within the next twelve months; therefore Management will need to raise additional funds to finance corporate and exploration expenditures.

(c) Market risk

Market risk is the risk related to changes in the market prices, such as fluctuations in foreign exchange rates and interest rates that will affect the Company's net earnings or the value of its financial instruments.

(i) Interest rate risk

Cash balances are deposited in highly-accessible and low-interest bank accounts that are used for short-term working capital requirements. The Company regularly monitors compliance to its cash management policy.

AURANIA RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

For the three and six months ended June 30, 2016

(Expressed in Canadian Dollars)

3. CAPITAL AND FINANCIAL RISK MANAGEMENT, Continued

Financial risk management, Continued

(ii) Foreign currency risk

Certain of the Company's expenses are incurred in CHF and are therefore subject to gains or losses due to fluctuations in this currency. Management believes that the foreign exchange risk derived from currency conversions is best served by not hedging its foreign exchange risk. At June 30, 2016 and December 31, 2015, the Company's exposure to foreign currency risk with respect to amounts denominated in CHF, was substantially as follows:

<i>In Canadian \$ equivalents</i>	June 30, 2016	December 31, 2015
Cash	\$2,815	\$5,868
Trade and other payables	(1,954)	(6,288)
Net exposure	\$861	\$(420)

(d) Commodity price risk

Commodity price risk is defined as the potential adverse future impact on earnings and economic value due to commodity price movements and volatility. The ability of the Company to develop its mineral properties and the future profitability of the Company is directly related to the market price of gold, uranium, and other metal commodities.

Commodity prices have fluctuated significantly in recent years. There is no assurance that these metals will be produced in the future or that a profitable market will exist for them. As of June 30, 2016 and December 31, 2015 the Company was not a metals commodity producer.

(e) Sensitivity analysis

As of June 30, 2016 and December 31, 2015, both the carrying and fair value amounts of the Company's financial instruments are approximately equivalent due to their short-term nature.

Based on Management's knowledge and experience of the financial markets, the Company believes that a 10% strengthening of the Canadian dollar against the CHF would have decreased the net asset position of the Company as at June 30, 2016 by \$86 (increased by \$42 at December 31, 2015). A 10% weakening of the Canadian dollar against the same would have had an equal but opposite effect.

4. EXPLORATION EXPENDITURES

The Company, through its wholly-owned subsidiary AVS, holds a 100% interest in three exploration permits in Switzerland (the "Permits") in the Canton of Valais (the "Canton") subject to a 3% gross value royalty payable to the Canton and a 0.75% gross value royalty payable to the surface rights holders, described as follows:

(a) *Mont Chemin Project (gold-silver)*

On July 11, 2008, the Company was granted a five-year exploration permit known as the "Perimetre de Tête-des Éconduits – Mont Chemin *Permis de fouille*" by a government department of the Canton.

(b) *Siviez Project (uranium-copper-gold-silver)*

On June 24, 2009, the Company was granted a five-year exploration permit known as the "Siviez-Plan du Fou – Col. des Mines *Permis de fouille*" by a government department of the Canton.

(c) *Marécottes Project (uranium)*

On July 11, 2008 the Company was granted a five-year exploration permit known as the "Perimetre de la Creusaz (Marécottes) Balaye (Finhaut) *Permis de fouille*" by a government department of the Canton.

AURANIA RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

For the three and six months ended June 30, 2016

(Expressed in Canadian Dollars)

4. EXPLORATION EXPENDITURES, Continued

Permit Status

The Canton Authority (the "Ministry") has confirmed that:

- The original Permits and their extended periods expired in June 2015; however the Ministry froze the Permits to preserve their priority;
- The Mining Law on which the Permits were originally issued, is under revision;
- The Ministry is prepared to issue new permits once the new Mining Law comes into effect;
- The original financial requirements of the Permits were too high in comparison to international standards and the Ministry is open to discussion of revised terms; and
- The Mining Law is still being revised and Management believes the "freeze" status on the Permits is still in effect. The Company has also requested a reduction in area to be explored and the Ministry has accepted this proposal, in principle.

Cumulative exploration expenditures related to the Properties are summarized as follows:

	Cumulative Balance, December 31, 2014 \$	Additions Expensed \$	Cumulative Balance June 30, 2015 \$	Additions Expensed \$	Cumulative Balance December 31, 2015 \$	Additions Expensed \$	Cumulative Balance June 30, 2016 \$

AURANIA RESOURCES LTD.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Unaudited)

For the three and six months ended June 30, 2016

(Expressed in Canadian Dollars)

5. PROMISSORY NOTE

During the six months ended June 30, 2016 and 2015, the Company received a total of \$128,190 (2015 - \$26,700) short-term advances from the Lender. (see note 1). These advances are evidenced by an unsecured, non-interest-bearing promissory note, and are repayable upon demand by the Lender. As at June 30, 2016 the Lender has advanced a total of \$290,290 (December 31, 2015 - \$162,100).

6. SHARE CAPITAL

- a) **Authorized share capital** at June 30, 2016 and December 31, 2015 is 1,000,000,000 common shares with a par value of \$0.00001 per share. All shares issued are fully paid.
- b) **Issued and outstanding common shares** at June 30, 2016 and December 31, 2015 - 22,759,735.

In accordance with National Policy 46-201 and the TSXV regulations, a total of 13,427,873 common shares, owned or controlled by the Company's principals, were deposited into escrow, to be automatically time-released over the 36-month period following April 17, 2013 (date of listing). As of June 30, 2016 all 13,427,873 escrowed shares have been released.

Further, applicable TSXV seed share restrictions were imposed in connection with the Company's 2013 IPO and a total of 660,000 seed shares were also subject to hold periods for resale. 10,000 of these seed shares were released by August 11, 2013. The remaining 650,000 seed shares were also been automatically time-released over the 36-month period following the date of listing. As of June 30, 2016, all 650,000 escrowed seed shares have been released.

7. STOCK-BASED COMPENSATION

The Company maintains a stock option plan (the "Plan") for the benefit of directors, officers, employees and consultants. The maximum number of common shares reserved for issuance with respect to the Plan cannot exceed 10% of the issued and outstanding common shares of the Company at the date of grant.

- (i) During the six months ended June 30, 2016 and 2015, there were no new issuances of stock options under the Plan.
- (ii) On May 13, 2015, 30,000 stock options expired. The value of \$8,973 was reclassified to accumulated deficit.
- (iii) On April 11, 2015, 350,000 broker warrants expired, unexercised. The value of \$73,500 was reclassified to accumulated deficit.
- (iv) During the six months ended June 30, 2016, \$nil (2015 - \$24,038) was recorded as stock-based compensation, in the statement of loss. This pertained to the amortized value of unvested stock options that were granted in 2013.
- (v) The following summarizes the stock options activity during the six months ended June 30, 2016 and 2015:

	Number of Options	Weighted Average Exercise Price	Estimated Fair Value at Grant/Issue Date
Balance - December 31, 2014 and June 30, 2015	2,210,000	\$0.40	\$620,489
Expired	(380,000)	\$0.40	\$(82,472)
Balance - December 31, 2015 and June 30, 2016	1,830,000	\$0.40	\$538,017

AURANIA RESOURCES LTD.
