MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING AND NOTICE TO READER

The accompanying unaudited condensed interim consolidated financial statements of Aurania Resources Ltd. (the "Company") for the three months ended March 31, 2024 are the responsibility of the Company's management ("Management") and have been prepared by Management and include the selection of appropriate accounting principles, judgments and estimates necessary to prepare these condensed interim consolidated financial statements ("Financial Statements") in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting. These condensed interim consolidated financial statements do not conform in all respects to the requirements of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") for annual financial statements. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2023.

In accordance with National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the Financial Statements, they must be accompanied by a notice indicating that the condensed interim consolidated financial statements have not been reviewed by an auditor. The Company's independent auditor has not performed a review of these condensed interim consolidated financial statements in accordance with the standards established by the Chartered Professionals Accountants of Canada for a review of condensed interim consolidated financial statements by an entity's auditor.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended March 31, 2024 and 2023 (Unaudited)

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND BUSINESS CONTINUANCE

Aurania Resources Ltd. (the "Company") was incorporated under the laws of Bermuda on June 26, 2007 pursuant to the provisions of The Companies Act 1981 (Bermuda). On February 18, 2011, the Company registered extra-provincially in the Province of Ontario, Canada. The registered head office of the Company is located at 31 Victoria Street, Hamilton, HM10, Bermuda. The corporate office is located at Ste. 1800 – 8 King Street East, Toronto, ON M5C 1B5.

The Company is a junior exploration mining company engaged in the identification, evaluation, acquisition and exploration of mineral property interests, with a focus on precious metals. On May 26, 2017, the Company acquired EcuaSolidus, S.A. ("ESA"), a private Ecuador-based company, owned by the principal shareholder of the Company, in order to acquire all the rights, title and interest in 42 mineral exploration licenses in Ecuador (the "Lost Cities – Cutucu Project" or the "Project"). See note 8 – Mineral Property Interests.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that the current exploration program will result in profitable mining operations. The recoverability of the amounts expended on mineral property interests and the carrying value of property and equipment and the Company's continued existence is dependent upon the preservation of its interest in recoverable reserves, the achievement of profitable operations, maintenance of concessions and, the ability of the Company to raise necessary financing to complete its planned exploration program.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration activities and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims and noncompliance with regulatory and environmental requirements. See note 8 – Mineral Property Interests regarding the current status of the Company's permits and licenses. The Company's assets are located in Ecuador and Peru and are subject to the risk of foreign investment, including increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions and political uncertainty.

As at March 31, 2024 the Company had current assets \$654,252 (December 31, 2023 - \$473,769) to fund current liabilities of \$3,979,232 (December 31, 2023 - \$829,072), and long-term liabilities of \$11,097,846 (December 31, 2023 - \$10,053,329). Further, the Company had an accumulated deficit of \$103,446,474 (December 31, 2023 - \$98,771,170) and working capital deficit of \$3,324,980 (December 31, 2023 - deficiency of \$355,303).

The Company's ability to continue operations and fund its future exploration property expenditures is highly dependent on Management's ability to secure additional financing. Management acknowledges that while it has been successful in raising sufficient capital in the past, there can be no assurance it will be able to do so in the future. As a result, there is material uncertainty that results in significant doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include the adjustments that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. STATEMENT OF COMPLIANCE

These Financial Statements, including comparatives, have been prepared in accordance with IAS 34 - Interim Financial Reporting. These Financial Statements do not conform in all respects to the requirements of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIALSTATEMENTS (Unaudited)

(Expressed in Canadian Dollars)

Board ("IASB") for annual financial statements. Accordingly, these Financial Statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2023 which can be found on the Company's SEDAR+ profile at www.sedarplus.ca and are also available on the Company's website http://www.aurania.com.

3. BASIS OF PRESENTATION

Basis of measurement

These Financial Statements have been prepared under the historical cost convention except for certain financial assets and liabilities, which are measured at fair value. All amounts have been expressed in Canadian dollar ("CAD" or "\$"), the Company's functional currency, unless otherwise stated and "USD" represents United States dollars, "CHF" represents Swiss francs, "SOL" represents Peruvian SOL, and "EUR" represents European Union euro. All amounts have been rounded to the nearest dollar, unless otherwise stated.

Basis of consolidation

These Financial Statements incorporate the financial statements of the Company and its wholly-owned subsidiaries: AuroVallis Sarl ("AVS"), incorporated under the laws of Switzerland, ESA, incorporated under the laws of Ecuador, Sociedad Minera Vicus Exploraciones S.A.C, incorporated under the laws of Peru, Breizh Ressources, incorporated under the laws of France, and Corsica Ressources, incorporated under the laws of France. All intercompany transactions, balances, income, and expenses are eliminated upon consolidation.

Significant accounting judgments and estimates

The application of the Company's accounting policies in compliance with IFRS requires the Company's management to make certain judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. These estimates and assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date are the same as those described in the Company's most recent annual financial statements, which can be found on the Company's SEDAR+ profile at www.sedarplus.ca and are also available on the Company's website http://www.aurania.com.

4. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in these Financial Statements are based on IFRS policies issued and outstanding as of the date the Board of Directors approved these condensed consolidated interim financial statements being May 27, 2024. The same accounting policies and methods of computation are followed in these Financial Statements as those applied in note 4 – Significant Accounting Policies of the Company's most recent annual consolidated financial statements for the year ended December 31, 2023.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIALSTATEMENTS (Unaudited)

For the three months ended March 31, 2024 and 2023

(Expressed in Canadian Dollars)

Recently adopted accounting pronouncements

Certain pronouncements were issued by the IASB that are mandatory for accounting periods commencing on or after January 1, 2024. Many are not applicable or do not have a significant impact to the Company. There are no relevant IFRS's or IFRS interpretations that are effective that would have a material impact on the Company.

Future changes in accounting pronouncements

A number of new standards are not yet effective for the year ended December 31, 2024, and have not been applied in preparing these financial statements. Many are not applicable to, or do not have a significant impact on the Company and have therefore been excluded. The following have not been adopted and are being evaluated to determine their impact on the Company's consolidated financial statements. The Company will adopt these pronouncements as of their effective date.

IFRS 10 – Consolidated Financial Statements ("IFRS 10") and IAS 28 – Investments in Associates and Joint Ventures ("IAS 28") were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined; however early adoption is permitted.

5. CAPITAL AND FINANCIAL RISK MANAGEMENT

Capital management

The Company considers the capital that it manages to include share capital, share premium, warrants, contributed surplus and shareholder contribution and accumulated deficit, which at March 31, 2024 was a deficiency of \$14,204,175 (December 31, 2023 – deficiency of \$10,172,393). The Company manages its capital structure and makes adjustments to it, based on the funds needed in order to support the acquisition and exploration of mineral properties. Management does this in light of changes in economic conditions and the risk characteristics of the underlying assets. There has been no change with respect to the overall capital risk management strategy during the three months ended March 31, 2024.

Neither the Company nor its subsidiaries are subject to externally imposed capital requirements, other than those of the TSX Venture Exchange ("TSXV"), which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of six months.

Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign currency, and commodity price risk). Risk management is carried out by management, with guidance from the Audit Committee under policies approved by the Board of Directors (the "Board"). The Board also provides regular guidance for overall risk management. There have been no changes in the risks, objectives, policies, and procedures during the three months ended March 31, 2024.

Credit risk

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company has no significant concentration of credit risk arising from its operations. Cash is held at select Canadian, Swiss, Ecuadorian, Peruvian and French financial institutions,

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIALSTATEMENTS (Unaudited)

For the three months ended March 31, 2024 and 2023

(Expressed in Canadian Dollars)

from which management believes the risk of loss to be low. The Company does not have any material risk exposure to any single debtor or group of debtors.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company endeavors to have sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot be reasonably predicted.

The Company generates cash flow primarily from its financing activities. As at March 31, 2024, the Company had available cash of \$542,592 (December 31, 2023 – \$325,262) to settle current liabilities of \$3,979,232 (December 31, 2023 – \$829,072). Also, the Company has long-term liabilities of \$11,097,846 (December 31, 2023 – \$10,053,329). See note 9 – Promissory notes. All the Company's financial liabilities generally have contractual maturities of less than 30 days and are subject to normal trade terms, except for its promissory notes.

In addition to the commitments disclosed in Note 18, the Company is obligated to the following contractual maturities of undiscounted cash flows as at March 31, 2024:

In Canadian \$ equivalents	Carry amount	Contractual cash flows	April 1 ,2024 to March 31, 2025	Thereafter
Accounts payable and accrued liabilities	\$ 3,937,463	\$ 3,937,463	\$ 3,937,463	\$ -
Promissory note 2017 (note 9)	547,658	656,612	-	656,612
Promissory note 2019 (note 9)	3,793,425	4,548,067	-	4,548,067
Promissory note March 2022 (note 9)	1,424,197	1,707,458	-	1,707,458
Promissory note June 2022 (note 9)	886,151	1,056,164	-	1,056,164
Promissory note July 2022 (note 9)	883,466	833,333	-	833,333
Promissory note June 2023 (note 9)	1,727,902	2,067,929	-	2,067,929
Promissory note October 2023 (note 9)	857,071	1,027,085	-	1,027,085
Promissory note January 2024 (note 9)	851,619	1,021,619	-	1,021,619
Lease liabilities (note 10)	168,128	182,965	65,102	117,863
Total	\$ 15,077,080	\$ 17,038,696	\$ 4,002,565	\$ 13,036,131

As the Company has no steady source of revenues or cash flow, it is highly probable that additional financing will be required during 2024 to further advance exploration at the Project, and to meet ongoing financial obligations in the normal course of business. There can be no assurance that financing will be available on terms acceptable to the company or at all.

Market risk

Market risk is the risk related to changes in the market prices, such as fluctuations in foreign exchange rates and interest rates that will affect the Company's net earnings or the value of its financial instruments.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIALSTATEMENTS (Unaudited)

For the three months ended March 31, 2024 and 2023

(Expressed in Canadian Dollars)

(i) Interest rate risk

Cash balances are deposited in highly-accessible and low-interest bank accounts that are used for short-term working capital requirements. The Company regularly monitors compliance to its cash management policy.

(ii) Foreign currency risk

Certain of the Company's expenses are incurred in USD, CHF, SOL, and EUR, which are subject to potential gains or losses due to fluctuations in these currencies. As at March 31, 2024, the Company holds balances in those foreign currencies which are subject to foreign currency risk, with the most material being in USD. The CAD equivalent of the USD balances include \$141,260 in cash (December 31, 2023 – \$56,652) and \$9,578,679 in accounts payable, accrued liabilities, and promissory notes (December 31, 2023 – \$6,230,667). The financial position related to balances in the other currencies is less significant. The Company's exposure to foreign currency risk with respect to amounts denominated in USD, CHF, SOL and EUR, as of March 31, 2024 and December 31, 2023 was substantially follows:

In Canadian \$ equivalents	March 31, 2024	December 31, 2023
Cash	\$173,473	\$88,858
Accounts payable, accrued liabilities and promissory notes	(9,609,603)	(6,261,613)
Net exposure	\$(9,436,129)	\$(6,172,755)

Management believes that the foreign exchange risk derived from currency conversions is best served by not hedging its foreign exchange risk.

Sensitivity analysis

Based on Management's knowledge and experience of the financial markets, the Company believes that a 10% strengthening of the Canadian dollar against the USD, CHF, SOL and EUR at March 31, 204 would have increased the net asset position of the Company by \$943,613 (at December 31, 2023 – \$617,276). A 10% weakening of the Canadian dollar against the same would have had an equal but opposite effect.

At March 31, 2024 and December 31, 2023, both the carrying and fair value amounts of the Company's short-term financial instruments are approximately equivalent due to their short-term nature. The carrying amount of the long-term promissory notes at March 31, 2024 approximates their fair value. The carrying value of the long-term promissory notes at March 31, 2024 is approximately \$10,971,487. This was estimated based on discounting the promissory notes at an estimated discount rate of 20% with term a term of one year.

Commodity price risk

Commodity price risk is defined as the potential adverse future impact on earnings and economic value due to commodity price movements and volatility. The ability of the Company to develop its mineral properties and the future profitability of the Company is directly related to the market price of gold, silver, copper, and other commodities.

Commodity prices have fluctuated significantly in recent years. There is no assurance that these metals will be produced in the future or that a profitable market will exist for them. As of March 31, 2024 and December 31, 2023, the Company was not a metals commodity producer.

8. MINERAL PROPERTY INTERESTS

ECUADOR

a) Mineral concessions and obligations

The Company acquired the rights, title and 100% interest in the Lost Cities Project, comprised of certain mineral concessions covering 207,764Ha in southeastern Ecuador, on May 26, 2016 and subsequently registered before the Mining Registry of the Mining and Non-Renewable Natural Resources Regulation and Control Agency in compliance with the Mining Law. The concessions are valid for 25 years, renewable for a subsequent 25-year period, provided that the concessions are maintained in good standing.

b) Relinquishment or cancellation of concessions

The size of the concession area constituting the Project may be reduced at the Company's discretion, based on exploration results. Conversely, mineral concessions can be cancelled by the State, for various reasons including, misrepresentation by the concession-holder of the stage of the concessions' exploration and development, by causing an excessive environmental impact, irreparable damage to Ecuadorian cultural heritage, or by the violation of human rights. See note 15 – Exploration expenses.

c) Exploration entitlements

The properties are subject to two percent (2%) net smelter return royalty on metal production and a two percent (2%) net sales return royalty on non-metallic products, held by Dr. Keith Barron, vendor and current Chairman, CEO, and largest shareholder of the Company.

² Requirement satisfied.

³ The Company filed all the appropriate documentation for the renewal of its 42 mineral exploration concession in Ecuador. The Company also filed a request to enter into an agreement for payment of the associated annual concession fees. By filing the concession renewals prior to the March 31, 2024 deadline, the Company maintains its property in Ecuador in good standing while an agreement is finalized.

⁴ 2024 amounts are estimated maximum Required Expenditures that assumes the current number of concessions are maintained and a continuing fee of USD10.00 per hectare.

⁵ Reported by March 31 of the following year.

⁶ The Company will evaluate the concessions and may not renew those of lower geological interest. The Company does not know the combination of concessions advancing to Advanced Exploration and those to be released, which may result in an increase or decrease in the amounts to be paid.

PERU

Mineral concessions in Peru

At March 31, 2024, the Company's land position in Peru consists of a total of 94 concession applications and concession titles covering 93,100Ha (5 applications for 4,900Ha and 89 concession titles for 88,200Ha).

- The Company decided to withdraw the applications pending to be verified by local authorities, keeping the 94 concessions already granted.
- The annual concession fee is USD3.00 per hectare required to keep the concessions in good standing.
- At this time, the Company has no current plans to perform additional exploration on the project in Peru, and is considering alternatives to further this project, including potential joint venture opportunities.
- At March 31, 2024, the Company had credits worth \$900 (March 31, 2023 \$358,436) corresponding to rejected mineral property applications from previous years, resulting in credits that can be applied in the INGEMMET to future applications or concessions fees.

9. PROMISSORY NOTES

Promissory Notes 2017 - 2023

During 2017, 2019, 2022, and 2023 Dr. Keith Barron, who is the Chairman, President, and Chief Executive Officer, as well as a principal shareholder of the Company (the "Lender" or "Dr. Barron"), advanced a total of seven loans to the Company in the following dates and amounts:

- March 20, 2017 USD2,000,000 (\$2,671,600 at an exchange rate of 1.3358 USD/CAD). Portions of this loan were repaid on various dates, including a settlement involving stock options.
- April 22, 2019 USD3,000,000 (\$4,005,900 at an exchange rate of 1.3353 USD/CAD)
- March 11, 2022 USD1,187,500 (\$1,510,500 at an exchange rate of 1.2720 USD/CAD)
- June 10, 2022 \$1,000,000
- July 29, 2022 \$1,000,000
- June 14, 2023 \$2,000,000, received in advances between June 20 and September 20, 2023
- October 13, 2023 \$1,000,000, received in advances between October 11 and December 12, 2023

The loans are unsecured, bear interest at 2% per annum and mature upon notice of twelve months and one day from the Lender. IFRS requires that where an interest rate is below the market rate, estimated at 20% throughout the year ended December 31, 2023, there is deemed to be a benefit to the Company and as such that portion of the promissory loans considered to represent that benefit is recorded in equity as a shareholder contribution. The loans become repayable on the day following the one-year anniversary of Dr. Barron requesting repayment. The accretion on the promissory notes will be accounted for as a shareholder contribution until such time that the repayment is requested by the Lender. The amount of the benefit is then recognized over the life of the promissory notes as an accretion expense.

Each finder warrant entitles the holder to purchase one Unit at the Issue Price and is exercisable for a period of twenty-four (24) months from the closing of the first tranche. Dr. Keith Barron subscribed for 2,303,360 Units of this offering. The cash paid for regulatory and legal costs was \$18,913.

Respectively for warrants of first and second tranche: A value of \$587,215 and \$227,867 has been assigned using the Black-Sholes option pricing model using the following respective assumptions: expected dividend yield 0% for both, expected volatility of 116.99% and 117.27%, a risk free rate of 4.20% and 4.19% and an expected life of 2 years. Volatility is based on the historical trading of the Company's shares.

There is no guarantee that future tranches of the private placement will close in full or at all.

Debt Settlement

The Company announced on April 17, 2024, followed by an update on April 24, 2024, that the Board of Directors approved a debt settlement arrangement with Dr. Barron, whereby Dr. Barron will convert up to \$2,000,000, plus accumulated interest of \$72,165, of the loans owed to him by the Company into Common Shares at a price of \$0.20 per Common Share (the "Debt Settlement"). There are no warrants associated with the Debt Settlement. The Company has elected to settle the indebtedness through the issuance of Common Shares to preserve cash and strengthen the Company's balance sheet.
